Kathleen –

Attached is the PowerPoint for tomorrow's briefing, revised per your input last Friday. In the interest of time, we will probably need to skim pretty quickly through some of the slides on the water impacts. Carter is prepared to adjust his delivery of the background/impacts, as needed, depending on how the first part of the briefing goes. I have also attached the timeline that was prepared approximately a year ago, summarizing the project history and anticipated next steps as of that time, in case you want to send that to Rob along with the PowerPoint. It might be useful, but it could also be a distraction, so I leave that to your judgment.

Deliberative Process / Ex. 5

so please cc Carter if you want us to make any changes or need anything else to send to Rob.
